

Bright Visions

Early Childhood Center is dedicated to developing the full potential of all children — six weeks to six years of age

Philosophy

Young children learn in many different ways and often learn more quickly from other children.

Bright Visions combines both sighted and visually impaired children together in all classrooms. This gives them the unique opportunity to learn from one another.

They play, laugh, eat, and learn together in a welcoming, inclusive, and fun environment. They develop social, physical, cognitive and physical skills – skills they need for success in Kindergarten and beyond.

Most importantly, they all begin the process of growing into happy and healthy youngsters, ready to embark on their journey towards independence.

Bright Visions offers childcare and infant, toddler, preschool, pre-Kindergarten and summer camp programs.

Guiding Principles:

- Encourage active exploration and independence
